

Price List: NodePhone®

Features

Quality and Reliability

We've engineered our broadband network to prioritise NodePhone® traffic and utilised carrier-grade switches, meaning a consistently high quality experience – every call. And using our recommended hardware means your calls can switch over automatically to a conventional phone line (if you have one), should your Internet connection be unavailable.

Easy To Use

Using our recommended hardware and configurations, you keep using your existing telephone handsets, and simply make and receive calls in the usual way. You don't even need to turn your computer on!

Cost Effective

With very attractive call rates, including 18 cents untime to any standard fixed phone in Australia, you could be saving real money off your traditional phone bill. On NodePhone2 you'll find these savings **amplified** with our generous inclusion of monthly call credits. And there's no long term contracts to worry about.

Local Numbering

Each NodePhone® service is assigned one telephone number. You can choose a number that is 'local' to where you live – from any of the more than 2000 local calling zones across Australia.

Online Toolbox

You can conveniently set Call Forwards, Speed Dials, MultiLine, Call Barring and other features, as well as download your call records, via a simple online user interface.

Includes Caller ID and Voicemail

NodePhone2 services include Calling Line Identification ('caller ID') and a sophisticated voicemail system including the option of voicemail as email – with **no usage charges** and at no additional cost.

Service Charges

Service	Establishment	Monthly Rental	Included Monthly Call Credit
NodePhone1 (outbound calling only)	\$20	\$0	\$0
NodePhone2-Starter (both inbound and outbound calling, includes voicemail)	\$0	\$5	\$10
NodePhone2-Value (both inbound and outbound calling, includes voicemail)	\$0	\$10	\$20
NodePhone2-Premium (both inbound and outbound calling, includes voicemail)	\$0	\$20	\$40
NodePhone2-Special (only available with Naked ADSL2+ and NakedExtreme ADSL2+)	\$0	\$0	\$10

- The NodePhone1 establishment charge is waived if you also purchase NodePhone®-approved hardware from Internode. Popular choices include the OPEN 812L analogue telephone adapter (\$135) and the Billion 7401 ADSL2+ VoIP router with WiFi (\$199). Further details are available on our web site - www.internode.on.net/nodephone.

Call Rates

Call Type	Description	Flagfall	Per Minute	Notes
NodePhone®	Calls to another NodePhone® service	no charge	no charge	Free!
National	Calls to any standard fixed line telephone service in Australia	18 cents	no charge	18 cents untime
Mobile	Calls to any standard mobile phone service in Australia	no charge	29 cents	Note 1
International	Calls to any phone service outside of Australia	15 cents	from 5 cents	Notes 1 & 2

Note 1 : Timed charges for calls to Mobiles and International destinations are assessed on a per second basis, with a minimum assessed duration of one minute.

Note 2 : The International rates vary depending on the country/destination you are calling.

- You'll find most popular destinations - including all standard fixed line telephones in New Zealand, United Kingdom, USA, Canada, China (including mobiles), Hong Kong (including mobiles), Malaysia, Singapore (including mobiles), Taiwan, Thailand (including mobiles), Ireland, Greece & Italy - are just 5 cents per minute (plus a 15 cent flagfall).
- You can check the rate of any other international destination at our website.

NodePhone® MultiLine

Service	Change Fee	Monthly Rental
Additional NodePhone® Channel Capacity (above standard inclusion of 2 channels)	\$20	\$10 per additional channel per month (or part thereof)

NodePhone® MultiLine is an optional service, suitable for business IP Phone Systems and PBXs. It provides additional calling capacity 'on demand' for NodePhone® services, beyond the standard inclusion of two channels.
